Board 23. Monday 20th July.

I first joined the Papakura Bridge Club 20 months ago. One of the first things I noticed was that if players had a choice in a competitive situation between doubling the opponents, or bidding one more, or passing, the first choice was **never** doubling.

Over the past few months I have talked about that. And there has begun an effort to change.

Never has that been more obvious on this board last Monday.

We, EW, played in 4 Diamonds, and went one off , and when we opened the scoresheet we saw that Double Dummy the opponents could make 4 Hearts.

When we looked at the other scores however, we couldn't believe our eyes.

The other EW's had lost,

400, 1100, 1400, 1700

Well that was interesting!
